In Door County, we continue to make good progress on getting our residents vaccinated. As of today, DHS currently reports that 59% or 16,336 individuals have received at least their first dose of vaccine. Information about state vaccine progress can be found at: [COVID-19: Vaccine Data | Wisconsin Department of Health Services](#)

As of April 23, 2021, the pause on the Johnson and Johnson Vaccine has been lifted. This came after an extensive safety review by independent experts, the CDC, and the FDA.

As a result, Door County Public Health will again be offering the Johnson & Johnson as well as the Pfizer vaccines. Vaccine choice is available at the time of scheduling. To schedule an appointment for your first dose of COVID-19 vaccine go to: [www.bookdcphtimetap.com/](http://www.bookdcphtimetap.com/) There is no cost for the vaccine, it is free to all and no insurance information is collected.

All individuals age 16 and up are eligible for the vaccine (Pfizer only). A parent must sign the consent form for those under the age of 18 and a responsible adult must accompany the minor to the vaccine appointment.

As more Door County residents become vaccinated there continues to be a decrease in demand for vaccine. As a result, we have adjusted the amount of vaccine we are requesting, the number of appointments offered and times of the clinic. We are also changing our vaccine clinic model. Beginning Wednesday, May 5<sup>th</sup>, our vaccine clinics will shift from a drive-thru clinic to a walk-up clinic. Previously scheduled appointments for 2<sup>nd</sup> dose of vaccine will remain as drive-thru on May 5. First dose appointments for the 5<sup>th</sup> and all other scheduled appointments will be moved to the walk-up process at the Aging and Disability Resource Center (ADRC) located at 832 N. 14<sup>th</sup> Avenue, Sturgeon Bay. Appointments are still required to receive vaccine. Appointment times will be late afternoon to early evening to accommodate and encourage those who may be working or in school to receive the vaccine.

If you do not have access to internet, need assistance in scheduling/rescheduling, or have questions regarding the vaccine you may contact our office at 920-746-7180 for assistance.

We will continue to provide updates through the local media, the Door County website [Door County, WI | Official Website](#) , and Door County Public Health Facebook Page at [Door County Public Health | Facebook](#) .
